🪪 PROFILE

Soon to be a graduate in pursuit of an internship position at an established company, keen to learn and provide the best code solution. I am eager to find creative solutions, learn new languages and very enthusiast with software development. Combined with my degree skills, I have assimilated a diverse set of soft and hard skills from previous jobs in other industries.

🎓 EDUCATION

BSc (Hons) Computer Science   Oct 2019 – Jun 2022
Goldsmiths, University of London 🔗
Year 1 average: 82% │ Year 2 average: 90%

🧠 SKILLS

Languagues & Techs (Python, Java, Algorithms, Data Structures, TensorFlow, Keras, MATLAB, GitHub)

Soft skills (Problem Solving, Team Building, Creative Critical Thinking, Project Management)

Frontend (HTML, CSS3, Javascript)   │   **Backend** (MySQL, MongoDB, Node.js, React)

📂 RELEVANT PROJECTS

Real-time Convolutional Neural Networks for Emotion Classification 🔗   Oct 2021 – May 2022
TensorFlow / Jupyter Notebook

Deep Learning for Regression Problems 🔗   Nov 2021 – Dec 2021
TensorFlow / Jupyter Notebook / HTML

Splitsy: Bill Splitting App | Android 🔗   Oct 2020 – Apr 2021
Java / MySQL / GitHub / Agile / Scrum

Calorie Buddy | Dynamic Web Application 🔗   Feb 2021 – Apr 2021
JavaScript / Node.Js / Express.Js / MySQL / HTML
